

Mandates, Unemployment, and inflation

Brief summary of the data

Here i have collected data about states that have mandated the COVID-19 vaccine, unemployment rates, and inflation rates. Here we look to see if there is a correllation between the mandating of vaccines and unemployment rates. We also look at the affect of uneployment on the M1 money supply.

How many states have mandated the Vaccine?

Chart

Does mandating Vaccines affect the rate of unemployment?
